

PROJECT IDEAS

LIFE ON A CHICKEN FARM

What is life like on a chicken farm? Identify and compare urban and rural life.

Presentation Idea

Create a day planner that outlines the responsibilities of a kid living on a chicken farm versus one living in a city.

Write a report that compares the similarities and differences in the childrens' lives.

HEALTHY ENVIRONMENT = HEALTHY YOU

What type of environment do chickens need and how do Canadian chicken farmers make sure those needs are met?

Research chicken farming methods in Canada and compare them to those found in other parts of the world.

Presentation Idea

Create a model of a poultry barn to accompany written report.

CHICKEN FARMING THEN AND NOW

Today's demand for chicken has changed the modern chicken farming industry. Research and compare chicken farming methods past and present and the reasons why chicken farming has grown into such a large industry.

Presentation Idea

Write a report outlining how chicken farming has changed over the past 100 years.

Create a poster timeline representing the major changes including methods, technology and tools used in chicken farming.

FROM GATE TO PLATE

Explore the integrated relationships in food production and distribution by analyzing the steps involved in bringing chicken from gate to plate. Discuss how the suppliers', producers', retailers' and consumers' needs influence each other.

Presentation Idea

Create a visual chain linking all the aspects of chicken farming, from gate to plate, with a description of how each step in the process is linked to the other.
